Macquarie Bank Macquarie Bank Limited is the largest investment bank in Australia, and also one of the top merger and acquisition advisers in the country. It is primarily an investment banking bank which provides a huge portfolio of financial services to retail, corporate and institutional clients. Headquartered in Sydney, the Macquarie Bank Limited is a global investment banking and fund management service provider, with offices in over 28 countries. With over 45 years in the financial industry, Macquarie Bank Limited has made a name for itself in providing high end financial products and services, such as trading and hedging, asset management, capital market research, retail financing, capital market advisory, funds management, and so on. Through the Macquarie Bank Limited's strong research infrastructure and capital holdings, it is able to produce some of the benchmark and highly profitable funds and financial tools, which caters to numerous clients across the globe. The bank also has a very robust and integrated risk management system in place to contain the volatility of the capital markets, and ensure profitability for its clients. The Macquarie Bank Limited has over 14,000 staff, spread through 70 offices in 28 countries.
