Mortgage Choice Limited - Australian Finance Directory Established in 1992 by brothers Rod and Peter Higgins, Mortgage Choice was founded with the aim to help Australians improve their financial situation by offering a choice of home loan providers, coupled with the expert advice of a mortgage professional. Mortgage Choice writes a home loan every 15 minutes in Australia via its network of hundreds of franchises. It offers a wide choice of hundreds of home loan products via an extensive panel of leading lenders. These days Mortgage Choice isn't just about home loans. Ease of convenience for borrowers and a strong commitment to 'duty of care' is why many of its brokers also help to source personal loans, commercial loans, asset finance, deposit bonds, and risk and general insurances for their customers. They can also refer customers its growing network of Mortgage Choice financial advisers, who are committed to the concept of driving 'real, relevant results' for everyday Australians. Mortgage Choice has always been on the side of the customer, and it was the first broker in Australia to launch a Customer Charter, which fully discloses its service, payment model, privacy policy and complaints procedure. Its high standards mean it has been recognized via numerous industry awards and accolades over the years. Mortgage Choice has no balance sheet or funding risk, and consistently delivers strong profits and attractive yields. It listed on the ASX in 2004 (MOC) and is a member of the Mortgage & Finance Association of Australia (MFAA). In September 2013 it was also added to the S&P/ASX 300 Index.
