Illawarra Mortgage Brokers - Australian Finance DirectoryIn 2001 Peter started Illawarra Mortgage Brokers, and then proceeded to open offices in Tongarra Road, Albion Park and in Argyle St Moss Vale. He has been operating this business successfully ever since. Peter prides himself on understanding the policies and procedures that the lenders have and just how those policies relate to a better financial lending structure for his clients. Peter has extensive knowledge in every aspect of mortgage lending. Peter is extremely passionate about structuring loans that will save his clients both time, effort and money and prides himself on keeping his clients happy and informed as their finance application is being processed.Illawarra Mortgage Brokers also provides an absolutely free service, which means that commission is paid to it by the lenders, not by its clients - and clients can be sure, it is not added to the loan somehow either. The company holds its own Australian Credit License and its service is 100% free for all non-commercial mortgages. It is member of the Mortgage and Finance Association of Australia and it has a bunch of other memberships too, as most brokers do.
