City Tax Accountants - Australian Accountants DirectoryCity Tax Accountants enjoys the reputation of being one of Sydney's most successful accounting firms. Founded in 2011, they have earned this position because they continue to offer innovation and leading edge solutions to their clients over their many years in business.CTA offers a wide range of services including tax advice, bookkeeping, forensic accounting, business startups & registrations, trusts, self- managed superfunds, tax & compliance and practical workshops. The company researches and offer a tailored and considered solution for clients' business or organisation and not interested in the short term. The company offers full analysis of current accounting system so that together with the clients they can plan for the future as well as present needs and concerns.CTA believes in honest advice and expert accounting consultancy that suits specific needs and budget of clients, sourcing the most appropriate solutions for clients' business. The firm ensures that their clients' needs are met day by day and from year-to-year, whether a phone requires immediate replacement or entire system upgradation. The company's status as a CPAs (Certified Practicing Accountants) means that clients can benefit from the full range of expertise, experience and capacity on offer as a broad-spectrum accountancy and financial solution.
