Westpac Bank Westpac is an Australian bank and financial services provider with its head office in Westpac Place in Sydney. It is among the Australia's Big Four Banks and is also the second largest bank in New Zealand. Incorporated in 1817, the Bank of New South Wales (BNSW) was the first bank in Australia. For 2 centuries, it operated through its various branches in Australia and Oceania. In 1982, BNSW merged with the Commercial Bank of Australia and was renamed as WestPac Banking Corporation. The bank offers different banking services to personal and business account holders. Some of the personal banking products and services are savings and transaction accounts, debit, credit and travel cards, loans – personal and car, insurance products, share trading facilities, financial and investment planning services, online banking, telephone banking, foreign exchange and many more. It offer business banking products such as bank accounts, farm management and business term deposits, business credit cards, business loans, merchant services, international trade solutions, cash flow management and many more. It also offers corporate banking services that include debt market solutions, transaction banking solutions, commercial cards, commodities, carbon and energy products, fund management and more.
