Pythagoras leads the market in predictive investment knowledge. We put clients in control by giving knowledge and the confidence in what to do. Buy & Sell recommendations before the events that change the share price. Simple, easy to use recommendations – buys with an upper limit, sells with a timing. Proven methodology based on maths with outstanding results. Pythagoras eliminates human biases mathematically via 130,000+ lines of code. No more tedious annual reports, stock brokers research, economic papers or expensive subscriptions. Better returns, less time, less worry. Follow your passions in your new found free time.
