It was my love for property, process and people that essentially what drove me to a career in Mortgage Broking. With a focus on first home buyers and investors, my ultimate goal as your Broker is to keep you informed every step of the way and to always reassure you that the only stupid question, is the one you don't ask. My years of developing marketing campaigns under tight deadlines and strict budgets mean that I have developed exceptional project management skills, which is exactly the skills required to get you from the dream of home ownership to it being a reality. I keep you constantly updated on the progress of your application and explain what is happening at each stage, giving you total peace of mind. My idea of the perfect loan process is one where your Broker tells you like it is and gets you the right deal for your situation – and that's what I offer. You don't just have to come to me when you're ready to buy, come to me when you're ready to start preparing to. I can help you organise your finances, give you an idea of what you can expect based on your situation and alleviate any concerns you have, so you can focus solely on getting the property you want. Buying a home or an investment property, no matter at what stage of life is the biggest commitment that most of us will make. Having someone who has the knowledge, skills & commitment to support you along every step of the way, is the best decision you will make.
