Industrial and Commercial Bank of China Limited (ICBC) Australia By continuous endeavour and stable development, the ICBC bank is amongst the top largest listed banks in the world. The Bank is present in six continents with overseas network expanded to 41 countries and regions. In 2008, the bank was approved by the APRA as a foreign authorized deposit taking institution (ADI) and was allowed to conduct banking business in Australia with its office in Sydney. The Bank was named 'Global Bank of the Year' in 2014 and ranked first amongst the top 1000 world banks by the Banker and the largest enterprise in the world by the US magazine Forbes for the second consecutive year. ICBC offers private banking as well as Corporate Banking in Australia along with E-Banking and International Banking. The Australian branch provides its clients, an extensive range of banking products and services including trade finance, project finance, corporate loans, deposits, syndicated loans, foreign exchange, remittances, derivatives, settlement, clearing along with other related services. The Australian branch first and foremost serves those Chinese companies who are investing and trading with Australia and vice-versa along with selected group of local customers and transactions. It generates increased value for clients with its diverse specialized set of service strategies including financial instruments, treasury and capital market operations and other value added services.
